Subject: FW: [CAUTION EXTERNAL] Proposed concrete recycling plant at 10506 Barr Lane

Attachments: Concrete recycling.10506BarrLane.pdf

---

Hi there,

Shawn sent me this today. I hadn't heard about this one, but given where it will be located, I have some significant concerns about the impact additional truck traffic on the adjacent roads, not to mention that many trucks will likely want to use Springdale Road which is currently signed no trucks, but regularly ignored.

This one will need some traffic analysis when it comes in.

Thanks,

André

Good morning, Shawn

Just giving you a heads up that you'll probably be getting some calls about this one. The project they're referencing is permit number 20-28538.

Dear Commissioner Travillion,

Today I received the attached letter notifying Walnut Place of a proposed concrete recycling plant near the neighborhood.

We are appealing to you now to oppose the construction of such a facility in northeast Travis County. We are just beginning to see the end of the despised landfills, new developments are going up all around, and none of the roads serving this property are built for heavy truck traffic. The property is directly across the street from the historic Barr Mansion.

A concrete recycling facility will add both noise and air pollution to this area. Please, please help make sure a permit is not approved.

Thank you,

Joyce Thoresen  
Walnut Place Neighborhood Association
