Subject: RE 20-28538 10506 Barr Lane - Capital City Crushing

Below are 3 screen captures of the project area. It seems unlikely that CAMPO can move their alignment. The South properties are landfills of Waste Management preventing the alignment from moving East. To the North is the Pioneer Elementary school preventing the alignment from going farther West. Development is 119 acres, proposed disturbed area is 36 acres. Looks like they may have to move the drainage pit to the East side of the property (Or make multiple smaller drainage pits.)

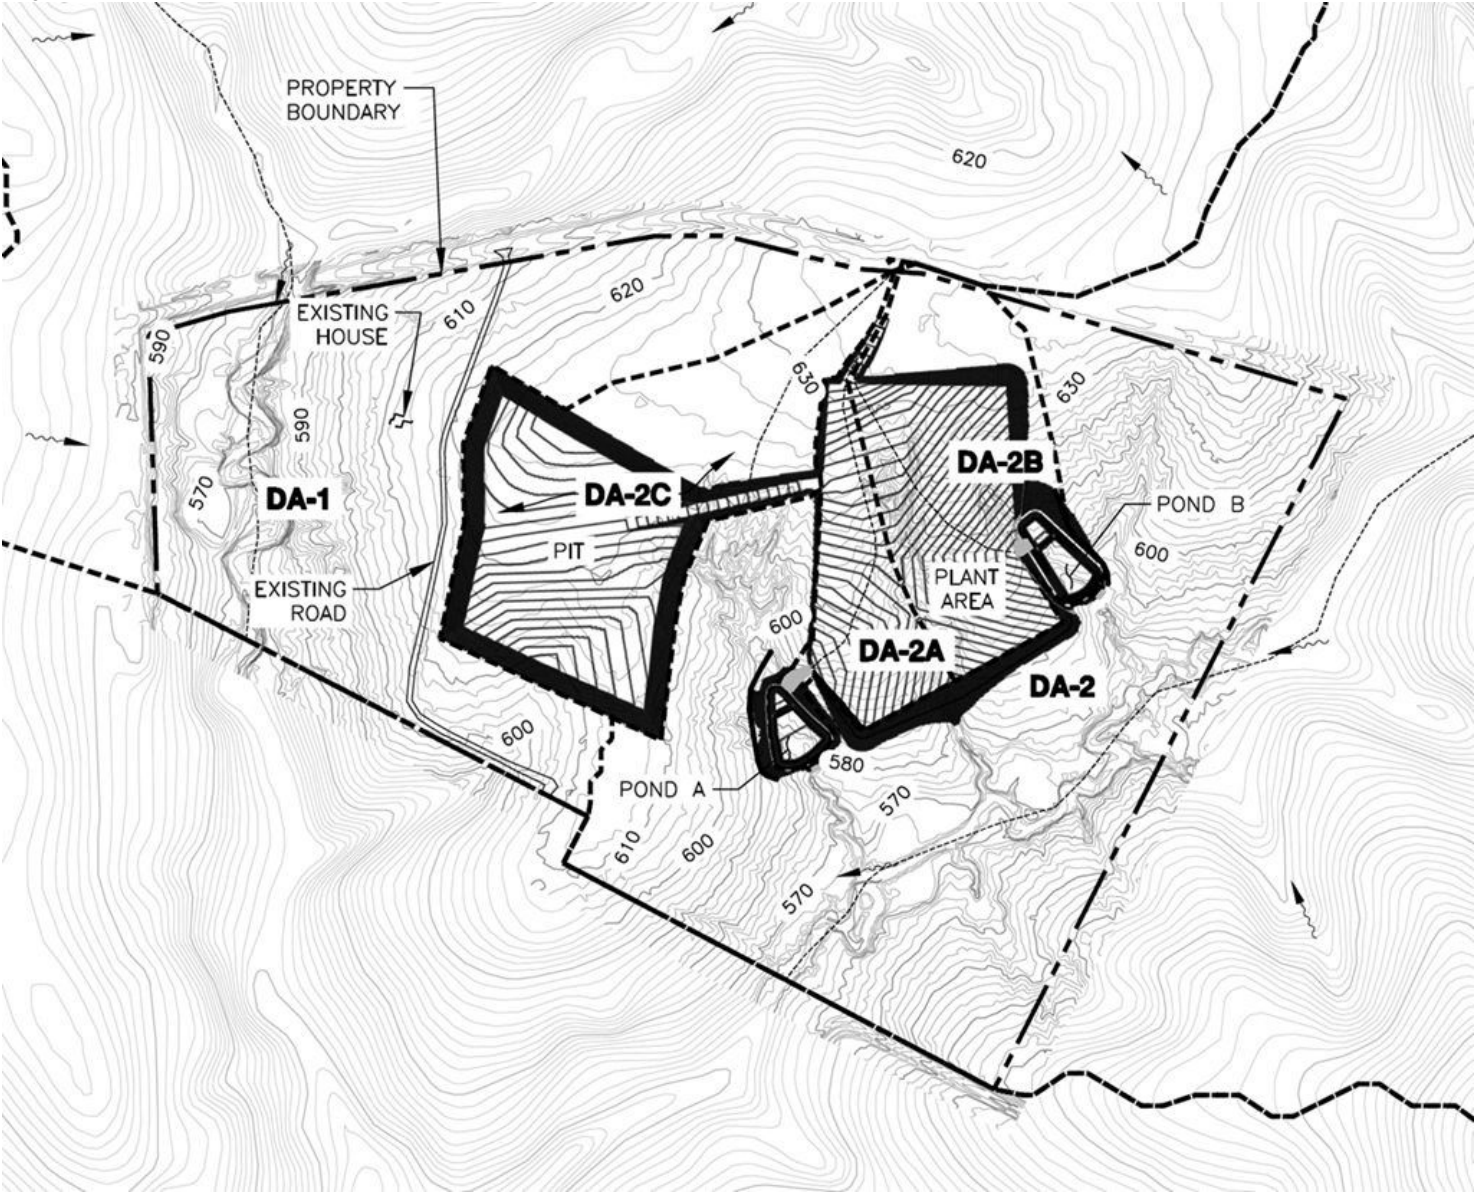

Two notes I am adding to the review comments:

1. - Capital Area Metropolitan Planning Organization (CAMPO) 2040 plan (Publish date:4/7/2015 – and current on the CAMPO website) continues to show Principal Arterial A passing through this property. Please provide documentation that the CAMPO plan has been revised and a CAMPO letterhead document stating that CAMPO finds no adverse impact from this project to their planned alignment.
2. - Please show CAMPO Arterial A path.

TNR Viewer Campo 2040 plan
